THE TIME OF MOSHIACH

ב"ה

THE ETERNAL TORAH

*The Leviathan will slaughter the Shor HaBor with its fin.... How can this be valid when it is forbidden to slaughter with a serrated knife, and a fish's fin is serrated? Moshiach will reveal new dimensions of the Torah and will explain why it is valid....
(Medresh Raba, Shmini, 13:3)*

Moshiach will not change any laws of the Torah, nor is he permitted to do so! Rather, Moshiach will demonstrate how such a slaughtering is valid under current Torah law. Slaughtering an animal represents removing our drive for animalistic behavior. Normally, this must be done through a single and total commitment. However, the elevation accomplished by the Leviathan's fin represents understanding the significance of an action on every level. There are many rungs in the spiritual ladder, and each must be understood and accomplished individually. It is impossible to accomplish all in a single leap. For that reason, taking it step by step is not considered interrupting the process.

We must realize that the Torah is eternal. However, as we grow and change, the same Torah applies to us differently. This is not a change in the Torah, but a change in us. Even when Moshiach comes, the Torah will remain constant, although there will be many changes in its application due to our elevated state.
