THE TIME OF MOSHIACH

ב"ה

THREE STAGES OF ELEVATION

There are three primary stages in the Messianic process. Many of the other descriptions of Moshiach fit into this framework:

1. Our job in exile is to refine the sparks of holiness scattered throughout the world. This work is primarily centered on refining our seven emotional traits, learning what is good and what is bad. This process of personal refinement is a prerequisite to Moshiach.
2. Once this is completed, we begin a second stage of refinement: refining our three intellectual traits so that we may “know G-d.” We must begin this process now, by learning the inner teachings of the Torah. We will complete this stage in the time of Moshiach, when the secrets of the Torah will be revealed to all.
3. After this, our service will shift to a process of uniting ourselves and everything in the world with G-d. This is like a fully mature adult who no longer needs to train his behavior but seeks to deepen his understanding of, and his relationship with G-d.
