THE TIME OF MOSHIACH

ב"ה

ELEVATING THE FISH

We are told that the powerful Shor HaBor (ox) will pierce the Leviathan with its long, sharp horn. The ox's horn comes to a single point that rises far above the head. This represents the superiority of action.

Even the loftiest understanding and the most sublime feelings need to be grounded in concrete actions. These actions open the mind so that it can experience the essence and bring practical benefit from one's thoughts and feelings. We must never let symbolism and theory detract from our commitment to simple action. Ultimately, it is actions, not ideas, that are the most meaningful.
