CELEBRATING MIRACLES

ב"ה

USE ONLY AS DIRECTED

G-d does not perform unnecessary miracles. Rather, every miracle is needed to accomplish some goal and to teach us a lesson. The same applies to the verses and teachings that discuss the miracles of Moshiach. The main reason these predictions are recorded is not to predict the future, but to teach us a lesson. If that is the way things will be when Moshiach comes, I can, and must, do something to hasten the time when those miracles take place.

In the following days, we will examine some of these miracles and the lessons that we can take from them.
