## THE TIME OF MOSHIACH

ב"ה

## LET'S EAT

*We are already sitting at the feast of Moshiach. We already have the Shor HaBor, and the Leviathan, and the guarded wine. We must simply open our eyes. (The Rebbe)*

We now live in the times of Moshiach with easy access to all of the spiritual elements of that time. Being at this final stage, the end of exile and the beginning of Redemption, it is up to us to begin accessing these spiritual treasures and to bring Moshiach into our lives. As we do this and achieve the Redemption spiritually, we will begin to manifest the Redemption physically.

The deepest secrets of the Torah are now available and accessible, and the world is now ready and eager to learn and change for the good. Communication has never been easier, with millions of people communicating in innumerable ways every day. We need to realize our unique opportunity and potential in the world around us; the Redemption is unfolding and we must capitalize on that reality.
